## ExxonMobil™ LDPE LD 258

Low Density Polyethylene Resin

ExxonMobil Chemical

## Message:

LD 258 is a low density polyethylene extrusion coating grade, which has better sensory properties than existing low odor/odorless low density polyethylene extrusion coating polymers. The development of LD 258 reflects our in-depth understanding of the influence of extrusion coating process parameters and resin properties on the final odorless and odorless properties of coating materials.

General Information			
Physical	Nominal Value	Unit	Test Method
Melt Mass-Flow Rate (MFR) (19	00°C/2.16		
kg)	8.2	g/10 min	ASTM D1238
