

Lusin® Clean 1090

Unspecified

Chem-Trend L.P.

Message:

Concentrated Purging Compound for Injection Moulding Machines, Hot-runner Systems and Extrusion Lines

Benefits

Especially developed for applications based on Polycarbonates (PC)

Rapid cleaning effect

Suitable for use on hot-runner systems

Enables transition from PC to Polymethylmethacrylate (PMMA) without causing black spots or milky traces

Description

Lusin® Clean 1090 can be used as purging compound for PC applications (colour change and removal of black spots). It is also suitable for the transition from PC to PMMA without causing black spots or milky traces during the reduction of process temperatures.

Typical Properties

Appearance : Beige granules

General Information	
Uses	Cleaning compound
Appearance	Beige
Forms	Particles
