Tritan™ LX200

Copolyester

Eastman Chemical Company

Message:

Eastman Tritan™ LX200 is an amorphous copolyester with excellent appearance and clarity. Its most outstanding features are excellent toughness, hydrolytic stability, and heat and chemical resistance. Eastman Tritan™ LX200 was developed for the cosmetic, fragrance, and personal care markets. Tritan™ LX200 can easily be converted into articles for application in consumer and personal care markets by injection molding, extrusion blow molding, and injection blow molding.

General Information	
Features	Impact resistance, good
