

ExxonMobil™ LDPE LD 259

Low Density Polyethylene Resin

ExxonMobil Chemical

Message:

LD 259 is a low density polyethylene extrusion coating brand, especially suitable for coating on non-woven fabric substrates. The high melt index and low density of this brand make it have a good balance between the adhesion to non-woven fabrics, the flexibility after coating, and the isolation of liquid and gas. LD 259 can also be used as a general extrusion coating and coextrusion coating brand and show: easy processing, good shrinkage/drafting balance, excellent heat sealing
