# **ALCUDIA® HDPE M5309**

### High Density Polyethylene

#### **REPSOL**

#### Message:

ALCUDIA® M5309 is a medium melt flow rate high density polyethylene with medium molecular weight distribution. It offers optimum processing properties for production of monofilaments with good tensile strength at break.

TYPICAL APPLICATIONS

ALCUDIA® M5309 gives flexible monofilaments with very low fibrillation tendency suitable for textile applications:

Note

Webs

Recommended melt temperature range from 210 to 230°C. Processing conditions should be optimised for each production line.
