

# Jiangsu Sinarise JM8713-1

Thermoplastic Elastomer

Jiangsu Sinarise New Material Technology Co., Ltd

Message:

Jiangsu Sinarise JM8713-1 is a Thermoplastic Elastomer (TPE) material. It is available in Asia Pacific. Primary attribute of Jiangsu Sinarise JM8713-1: High Strength.  
Typical application of Jiangsu Sinarise JM8713-1: Wire & Cable

| General Information          |                           |                   |
|------------------------------|---------------------------|-------------------|
| Features                     | High Temperature Strength |                   |
| Uses                         | Wire & Cable Applications |                   |
| Physical                     | Nominal Value             | Unit              |
| Specific Gravity             | 1.06                      | g/cm <sup>3</sup> |
| Hardness                     | Nominal Value             | Unit              |
| Durometer Hardness (Shore A) | 87                        |                   |
| Mechanical                   | Nominal Value             | Unit              |
| Tensile Strength             |                           |                   |
| -- <sup>1</sup>              | 13.3                      | MPa               |
| -- <sup>2</sup>              | 19.7                      | MPa               |
| Tensile Elongation           |                           |                   |
| Break <sup>3</sup>           | 200                       | %                 |
| Break <sup>4</sup>           | 350                       | %                 |
| Flammability                 | Nominal Value             |                   |
| Flame Retardant              | VW-1                      |                   |
| Heat Resistance              | 105                       |                   |
| NOTE                         |                           |                   |
| 1.                           | Material                  |                   |
| 2.                           | Wire                      |                   |
| 3.                           | Material                  |                   |
| 4.                           | Wire                      |                   |
