# apilon 52® MA-6505

### Thermoplastic Polyurethane Elastomer (Polyester)

API SpA

#### Message:

apilon 52®MA-6505 is a thermoplastic polyurethane elastomer (polyester)(TPU-polyester) product. It can be processed by injection molding and is available in Europe. apilon 52®MA-6505 applications include engineering/industrial accessories, electrical/electronic applications, electrical appliances, tools and home applications. Features include: high liquidity environmental protection/green Good flexibility low temperature resistance

#### General Information

Features

Recyclable materials

Good flexibility

High liquidity

Low temperature resistance

Uses

## Handle

Wheels Conveyor belt repair

Electrical/Electronic Applications

Electrical appliances

Washer

Power/other tools

Pipe fittings

Household goods

Sporting goods

Coating application

Footwear

| Processing Method                    | Injection molding |       |             |
|--------------------------------------|-------------------|-------|-------------|
| Physical                             | Nominal Value     | Unit  | Test Method |
| Specific Gravity                     | 1.17              | g/cm³ | ASTM D792   |
| Hardness                             | Nominal Value     | Unit  | Test Method |
| Durometer Hardness (Shore A, 15 sec) | 68                |       | ASTM D2240  |
| Mechanical                           | Nominal Value     | Unit  | Test Method |
| Tensile Strength                     |                   |       | ASTM D638   |
|                                      | 20.0              | MPa   | ASTM D638   |
| 100% strain                          | 2.50              | MPa   | ASTM D638   |
| 300% strain                          | 4.00              | MPa   | ASTM D638   |

| Tensile Elongation (Break) | 800           | %               | ASTM D638   |
|----------------------------|---------------|-----------------|-------------|
| Abrasion Resistance        | 60.0          | mm <sup>3</sup> | DIN 53516   |
| Elastomers                 | Nominal Value | Unit            | Test Method |
| Tear Strength <sup>1</sup> | 60.0          | kN/m            | ASTM D624   |
| Injection                  | Nominal Value | Unit            |             |
| Drying Temperature         | 80 - 100      | °C              |             |
| Drying Time                | 2.0           | hr              |             |
| Suggested Max Moisture     | 0.070         | %               |             |
| Rear Temperature           | 180 - 190     | °C              |             |
| Middle Temperature         | 185 - 200     | °C              |             |
| Front Temperature          | 190 - 215     | °C              |             |
| Nozzle Temperature         | 200 - 230     | °C              |             |
| Mold Temperature           | 30 - 60       | °C              |             |
| Injection Pressure         | 50.0 - 100    | MPa             |             |
| Injection Rate             | Slow-Moderate |                 |             |
| NOTE                       |               |                 |             |
| 1.                         | With Notch    |                 |             |
