# THERMOLAST® K TC5UVZ (Series: UV/AP)

# Thermoplastic Elastomer

# KRAIBURG TPE

#### Message:

The UV/AP Series is your material solution for applications requiring high UV resistance. It is particularly suited for automotive exterior components. The compounds comply with GM standard GMW 16233.

Typical applications

Roof rims

Water deflectors

Window encapsulations

Material advantages

Adhesion to PP

Easy flowing

**Excellent mechanical properties** 

Excellent UV- and weather resistance

| General Information                     |                           |       |             |  |
|---|---------------------------|-------|-------------|--|
| Features                                | Good Adhesion Good Flow   |       |             |  |
|   |                           |       |             |  |
|   | Good UV Resistance        |       |             |  |
|   | Good Weather Resistance   |       |             |  |
|   |                           |       |             |  |
