

Pearlthane® 91T85

Thermoplastic Polyurethane Elastomer

Lubrizol Advanced Materials, Inc.

Message:

Pearlthane® 91T85 is an aliphatic TPU, supplied in colourless natural pellets. In addition to typical TPU properties like outstanding abrasion loss, our PEARLTHANE® 91T85 offers excellent colour stability upon UV exposure. PEARLTHANE® 91T85 features a low density, fast processing and excellent elasticity properties. It has been specially designed for injection moulding process.

Pearlthane® 91T85 is especially recommended for injection moulding applications such as automotive parts and a variety of high performance technical parts where short cycle times and complete UV resistance are required.

General Information			
Features	Low density High elasticity Good UV resistance Fast molding cycle Good color stability aliphatic		
Uses	Engineering accessories Application in Automobile Field		
Agency Ratings	EC 1907/2006 (REACH)
