

Exact™ 3040 Extrusion Coating

Ethylene-based Plastomer Resin

ExxonMobil Chemical

Message:

Exact 3040 is an ethylene-based hexene plastomer produced using ExxonMobil Chemical's EXXPOL® Catalyst Technology. Exact 3040 is designed for monoextrusion and coextrusion coating applications. It offers outstanding adhesion and very low seal initiation temperature combined with high hot tack and seal strengths. This grade is specially recommended for enlarging the sealing window and to seal through contamination. It can be used as a minority or majority component in LDPE to improve optical and sealing performance.
