# TEKAMID™ TB120L

### Polyamide 6

Mando Advanced Materials Co., Ltd.

#### Message:

TEKAMID™ TB120L is a Polyamide 6 (Nylon 6) product. It is available in Asia Pacific.

Characteristics include:

Flame Rated

Good Mold Release

| General Information               |                   |       |             |
|-----------------------------------|-------------------|-------|-------------|
| Features                          | Good Mold Release |       |             |
| Physical                          | Nominal Value     | Unit  | Test Method |
| Specific Gravity                  | 1.14              | g/cm³ | ASTM D792   |
| Molding Shrinkage <sup>1</sup>    |                   |       | ASTM D955   |
| Flow                              | 1.4               | %     |             |
| Across Flow                       | 1.4               | %     |             |
| Mechanical                        | Nominal Value     | Unit  | Test Method |
| Tensile Strength                  | 73.5              | MPa   | ASTM D638   |
| Tensile Elongation (Break)        | 70                | %     | ASTM D638   |
| Flexural Modulus                  | 2450              | MPa   | ASTM D790   |
| Flexural Strength                 | 103               | MPa   | ASTM D790   |
| Impact                            | Nominal Value     | Unit  | Test Method |
| Notched Izod Impact               | 44                | J/m   | ASTM D256   |
| Thermal                           | Nominal Value     | Unit  | Test Method |
| Deflection Temperature Under Load |                   |       | ASTM D648   |
| 0.45 MPa, Unannealed              | 175               | °C    |             |
| 1.8 MPa, Unannealed               | 75.0              | °C    |             |
| Peak Melting Temperature          | 220               | °C    | ASTM D2133  |
| Flammability                      | Nominal Value     |       | Test Method |
| Flame Rating                      | НВ                |       | UL 94       |
| Injection                         | Nominal Value     | Unit  |             |
| Drying Temperature                | 80.0              | °C    |             |
| Drying Time                       | 5.0 to 10         | hr    |             |
| Rear Temperature                  | 240 to 270        | °C    |             |
| Middle Temperature                | 230 to 260        | °C    |             |
| Front Temperature                 | 210 to 260        | °C    |             |
| Nozzle Temperature                | 240 to 270        | °C    |             |
| Processing (Melt) Temp            | 250 to 270        | °C    |             |
| Mold Temperature                  | 40.0 to 100       | °C    |             |
| Injection Pressure                | 44.1 to 152       | MPa   |             |
