REVOLVE® XL 400 Black

Polyethylene

Matrix Polymers

Message:

Revolve xl400 is a rotational moulding cross-linkable polyethylene grade which combines outstanding performance with all the benefits of a high MFI resin. This grade is especially suitable for demanding applications such as diesel tanks and IBCs due to the superb chemical resistance. It is advisable to consult the MSDS before it is used.

General Information			
Features	Good Chemical Resistance		
	Good Impact Resistance		
	Good Moldability		
	High Flow		
	High Hardness		
	High Stiffness
