

Hangzhou Plastic PVC/PE/PVDC Laminated Film

PVC/PE/PVDC Film

Hangzhou Plastic Industry Co., Ltd.

Message:

PVC/PE laminated film is compounded by medical-using PVC rigid film and PE film. The products are mainly used for container package of small dosage liquid, for example: the packaging for orally taken liquid, daily chemicals and suppository medicine etc. Comparing with the glass vessel, it has the advantages of higher intensity, extreme low damage, good air tightness, safe storage and convenient portability etc., the cost is just half of glass one.

Application: Excellent dampproof, oxidation resistance medical package
