## **TITANPRO® SM850**

Polypropylene Impact Copolymer

Lotte Chemical Titan (M) Sdn. Bhd.

## Message:

Polypropylene impact copolymer. Titanpro SM850 is a nucleated extra high flow material. The base resin meets the requirements of the U.S. Food and Drug Administration as specified in 21 CFR 177.1520(a)(3)(i) and (c)3.1a. The adjuvant meet their respective FDA regulations and 21 CFR 177.1520(b). In summary, this resin meets the FDA criteria covering safe use of polyolefin articles and component of articles intended for food contact use. TSCA Registry: CAS# 9010-79-1

APPLICATIONS:

Automotive parts, housewares, washing machine tub and parts, large flat trays, thin walled containers.

Characteristics:

Easy processability, permitting wider latitude in design, good toughness at low temperature, good surface finish and color, low molded in stress and excellent heat stability.

**FABRICATION:** 

Equipment - ram or screw injection machines and techniques - standard processing.
