

Sungbo HI-LENE F-850P-1

Thermoplastic
Sungbo Co., Ltd.

Message:

Sungbo's HI-LENE F-850P-1 is a product manufactured from an automated extruder. This allows for a smooth surface and excellent permeability when extruded as well as exceptional whiteness, making it easy to use for products that require whiteness. Moreover, pollutants are minimized when incinerated or covered by landfill, and the speed of light decomposition of this environmentally friendly product can be adjusted with the mixing ratio. It boasts exceptional printability, coolability and shock resistance, all of which increases production and reduces costs.
