## NEFTEKHIM PS 945E

## High Impact Polystyrene

Nizhnekamskneftekhim Inc.

## Message:

Deep hot molding ability with good side-wall distribution.

Application: to manufacture articles, requiring extra strength; super impact strength in combination with high gloss enables to use this grade instead of ABS-plastics. This polymer perfectly suits for glossy sheet co-extrusion. A freon-resistant grade 945E may be customized. Technical Requirements: TU 2214-126-05766801-2003
