

# Envirez® LF 60380

Thermoset Polyester

Ashland Performance Materials

Message:

Ashland's award winning Envirez resin is the first commercially available unsaturated polyester resin (UPR) comprised of rapidly renewable materials. Envirez resins are manufactured using an innovative patented process. The Envirez technology incorporates a variety of renewably sourced raw materials in the formulation. The product line has been expanded to include resins with recycled content to provide for a larger number of more sustainable resin options.

Description

Filled laminating resin designed specifically for tub and shower type applications with heated lines. Filled viscosity at 55% Calcium Sulfate and 90F is 1500 cps.

General Information		
Features	Renewable Resource Content	
Processing Method	Laminating	
Physical	Nominal Value	Unit
Solution Viscosity	350	mPa · s
Solids Content	63	%
Biobased Content	20.0	wt%
Peak Exotherm	110	°C
Uncured Properties	Nominal Value	Unit
Gel Time	10	min
