

# SolVin 264PC

Polyvinyl Chloride

INOVYN

Message:

Polyvinyl chloride made by suspension polymerisation.

APPLICATIONS:

Rigid profiles, pipes, flexible profiles, plasticised hoses, cable insulation and sheathing, plasticised film and sheet.

Crystal-clear articles.

| General Information |                   |
|---------------------|-------------------|
| Uses                | Cable Jacketing   |
|                     | Film              |
|                     | Hose              |
|                     | Piping            |
|                     | Profiles          |
|                     | Sheet             |
| Appearance          | Clear/Transparent |
| Processing Method   | Calendering       |
|                     | Extrusion         |

| Physical                        | Nominal Value | Unit              | Test Method |
|---------------------------------|---------------|-------------------|-------------|
| Apparent Density                | 0.55          | g/cm <sup>3</sup> | ISO 60      |
| K-Value                         | 64.0          |                   | ISO 1628-2  |
| Sieve Analysis                  |               |                   | ISO 1624    |
| Retained on 0.063 mm sieve      | > 90          | %                 |             |
| Retained on 0.250 mm sieve      | < 2.0         | %                 |             |
| Volatile Matter                 | < 0.30        | %                 | ISO 1269    |
| Residual Vinyl Chloride Monomer | < 1           | ppm               | ISO 24538   |
