Epocast 1633 A/B

Epoxy; Epoxide

Huntsman Advanced Materials

Message:

DESCRIPTION: Epocast® 1633-A/B epoxy syntactic is a medium paste, halogen-free self-extinguishing compound designed for potting fasteners in honeycomb structures. The epoxy syntactic is easily extruded through 1/8 in. (3mm) nozzle orifice, but is non-flowing after application. It is easy to handle in isolated repair areas because the syntactic paste is available in dual-barrel cartridges. Epocast® 1633-A/B epoxy syntactic sets quickly at room temperature.
