

# Sylvin 8983-65 Black

Polyvinyl Chloride  
Sylvin Technologies Incorporated

Message:  
Sylvin 8983-65 Black Is A Vinyl Compound Formulated For Non-Migrating Profile Extrusion Applications.

| General Information                  |                     |                   |             |
|--------------------------------------|---------------------|-------------------|-------------|
| Features                             | Low to No Migration |                   |             |
| Uses                                 | Profiles            |                   |             |
| Appearance                           | Black               |                   |             |
| Processing Method                    | Profile Extrusion   |                   |             |
| Physical                             | Nominal Value       | Unit              | Test Method |
| Specific Gravity                     | 1.37                | g/cm <sup>3</sup> | ASTM D792   |
| Hardness                             | Nominal Value       | Unit              | Test Method |
| Durometer Hardness (Shore A, 10 sec) | 65                  |                   | ASTM D2240  |
| Mechanical                           | Nominal Value       | Unit              | Test Method |
| Tensile Strength                     | 11.7                | MPa               | ASTM D638   |
| Tensile Elongation (Break)           | 350                 | %                 | ASTM D638   |
| Elastomers                           | Nominal Value       | Unit              | Test Method |
| Tear Strength                        | 35.0                | kN/m              | ASTM D624   |
| Thermal                              | Nominal Value       | Unit              |             |
| Melting Temperature                  | 157 to 168          | °C                |             |
