

# Cogegum® AFR/765

Polyolefin

Solvay Specialty Polymers

## Message:

Cogegum® HFFR -Halogen Free Fire Retardant compound

Polyolefin based thermoplastic compound containing a fire retardant system that contributes to give the cable self-extinguish properties without halogenidric acids evolution; furthermore, toxic and corrosive gases emission and smoke generation are particularly reduced. These characteristics make this compound suitable in all applications where the fire behavior of cable materials is one of the main concerns to be considered in establishing a high safety level in public places. This material complies with RoHS requirements.

standard complying

EN 50363-0 M1; EN 50363-7 T16, T17; IEC 60502-1 ST8; Cenelec HD 624.7 S1; Cenelec HD 624.6 S1; VDE 0207 HM2, HM4, HM5, HJ2; BS 7655 LTS2;IEC 60092 SHF1; UNE 21123-4

| Die Temperature       | 150 - 180 | °C |

#### Extrusion instructions

##### Extrusion equipment

standard extruders for thermoplastics equipped with low compression screw (1:1.2-1.4 compression ratio and 20-25 L/D ratio are suggested), and an adequate barrel thermoregulation

don't use screw thermoregulation

filter net: not necessary; in case, use 40-80 mesh/cm<sup>2</sup> max. Anyway the use of the breaker plate is advisable, in particular using low compression screws

#### NOTE

1. 23°C
