

# ICORENE® Foam Products

Polyethylene

ICO Polymers NA, A Division of A. Schulman

## Message:

ICORENE® Foam Products are foamable polyethylene products offered in various physical forms and densities. These products are useful in the rotational molding industry for adding rigidity to a part while reducing weight.

Powders, pellets, and micro pellets are available in a variety of densities ranging from 7 to 30 pounds per cubic foot.

Consultation with an ICO sales person will help determine the correct combination of properties for your specific application.

General Information			
Additive	UV Stabilizer		
Features	Foamable		
	Good Processability		
	Good UV Resistance		
	High Stiffness		
Uses	Acoustic Barrier		
	Containers		
	Structural Foam		
Appearance	Colors Available		
	Natural Color		
Forms	Pellets 1		
	Powder		
Processing Method	Rotational Molding		
Physical	Nominal Value	Unit	Test Method
Density	0.112 to 0.481	g/cm <sup>3</sup>	ASTM D1505
