## Polyethersulfone

### Asia International Enterprise (Hong Kong) Limited

#### Message:

Polyethersulfone (PES) is a amorphous high heat resistance engineering polymer. It is transparency, outstanding hydrolysis resistance, inherent flame retardancy, excellent resistance to a broad range of chemicals and low smoke, can withstand high temperatures under load, and provides stable performances under extreme temperature changes. This overall outstanding performance material can be used in electronic/electrical, food and tableware, military, automotive, aerospace, and medical fields.

General Information					
Filler / Reinforcement	Glass Fiber,30% Filler by Weight				
Features	Amorphous				
	Flame Retardant				
	Good Chemical Resistance
