

SABIC® BR 4610

High Cis Polybutadiene Rubber

Saudi Basic Industries Corporation (SABIC)

Message:

SABIC® BR 4610 is a high cis-1,4 Polybutadiene rubber stabilized with a non-staining antioxidant. SABIC® BR 4610 is manufactured by solution polymerization process using stereo-specific Nickel catalyst system to control microstructure and Molecular weight distribution and provides a highly linear polymer.

Characteristics.

SABIC® BR 4610 is a medium Mooney grade generally used in blend with other elastomers and is designed for

Excellent abrasion resistance

Excellent flex cracking resistance

Excellent resilience

Good low temperature properties

Low rolling resistance

Appearance: off white to light amber

Typical applications.

Tire tread, sidewall and carcass

Conveyor belt coverings

Shoe sole, hoses and tube covers

Mechanical and sporting goods

Please take notice of specific storage and handling conditions.

This product is not intended for and must not be used in any pharmaceutical/medical applications.
