Addisil™ IND 2060 E

Rubber

Momentive Performance Materials Inc.

Message:

The Addisil IND 20X0 E series is a two-component heat curable rubber for making elastomers (HCE) with a hardness range between 50 and 80 Shore A for industrial applications. This series is based on a platinum cure system, which is particularly suitable for high value extrusion applications where regulatory compliance, transparency, mechanical performance and/or productivity are important. Application examples are oven door profiles and tubing for food applications.

Key Features and Benefits Good transparency, no yellowing Good mechanical performance Dry, non-stick surface Odourless during processing and in its application Fast curing Long shelf life of 6 months for the single components if stored appropriatelyM Very long pot life of 2 to 4 weeks for the mixed components Suitable for compliance with the food contact regulations FDA 21 CFR 177.2600 and the BfR section XV recommendations
