# Braskem PP H 614

## Polypropylene Homopolymer

#### Braskem

## Message:

H 614 is a low melt flow rate polypropylene homopolymer, stabilized for applications that demand direct exposure to sunlight, specially designed for the production of big bags. It has good processability and high melt resistance.

**Applications** 

Big bags; Building shade fabrics; Curtains and covers to aviary and agriculture.

Processing:

Raffia Extrusion
