

Dugdale PVC Lead Free Purge Compound

Rigid Polyvinyl Chloride

Dugdale Plc

Message:

A non-lead and non-tin stabilised extrusion-purging compound. This material is highly stabilised and lubricated to enable it to be used as a 'sleeping' material.

Blue, to allow the purging compound to be differentiated from 'normal' materials being purged and for the operator to observe when sufficient material has been processed to allow a safe machine shutdown. Other colours may be available on request.
