## Polypropylene

PolyOne Corporation

#### Message:

PP, UV resistant and heat resistant

| General Information              |                                   |                          |                 |
|----------------------------------|-----------------------------------|--------------------------|-----------------|
| Features                         | Good UV resistance                |                          |                 |
|                                  | Heat resistance, high             |                          |                 |
|                                  |                                   |                          |                 |
| Appearance                       | Light green                       |                          |                 |
| Processing Method                | Injection molding                 |                          |                 |
| Physical                         | Nominal Value                     | Unit                     | Test Method     |
| Specific Gravity                 | 0.900                             | g/cm³                    | ASTM D792       |
| Molding Shrinkage                | 1.4 - 2.0                         | %                        | ASTM D955       |
| Mechanical                       | Nominal Value                     | Unit                     | Test Method     |
| Tensile Strength <sup>1</sup>    | 29.0                              | MPa                      | ASTM D638       |
| Flexural Modulus <sup>2</sup>    | 1350                              | MPa                      | ASTM D790       |
| Impact                           | Nominal Value                     | Unit                     | Test Method     |
| Notched Izod Impact              | 82                                | J/m                      | ASTM D256       |
| Thermal                          | Nominal Value                     | Unit                     | Test Method     |
| Deflection Temperature Under Loa | d (0.45                           |                          |                 |
| MPa, Unannealed)                 | 90.0                              | °C                       | ASTM D648       |
| Electrical                       | Nominal Value                     | Unit                     | Test Method     |
| Surface Resistivity              | > 1.0E+12                         | ohms                     | ASTM D257       |
| Flammability                     | Nominal Value                     | Unit                     | Test Method     |
| Flame Rating (1.60 mm)           | НВ                                |                          | Internal method |
| Injection                        | Nominal Value                     | Unit                     |                 |
| Drying Temperature               | 80.0 - 85.0                       | °C                       |                 |
| Drying Time                      | 4.0 - 6.0                         | hr                       |                 |
| Processing (Melt) Temp           | 200 - 240                         | °C                       |                 |
| Mold Temperature                 | 30.0 - 60.0                       | °C                       |                 |
