

ANYPOL CL-200LL

Expanded Polystyrene

SH Energy & Chemical

Message:

ANYPOL EPS Resin is an expandable bead, which contains a blowing agent. According to the applications, it is divided into Self-extinguishable & General Purpose Grade and ANYPOL EPS Resin is an environmentally friendly product which it is possible to satisfy the customer's requirements immediately for special grades since the Production Tehnology of ANYPOL EPS Resin has been developed by our own R&D.

Properties:

- Short aging time
- Good molding process
- Short cycle time and good fusion
- Low thermal conductivity and good strength

General Information	
Additive	Blowing Agent
Features	Expandable
	General Purpose
	Good Processability
	Good Strength
	Thermally Conductive
Uses	Agricultural Applications
	Containers
	Marine Applications
