

Envirez® 86400 INF

Thermoset Polyester

Ashland Performance Materials

Message:

Ashland's award winning Envirez resin is the first commercially available unsaturated polyester resin (UPR) comprised of rapidly renewable materials. Envirez resins are manufactured using an innovative patented process. The Envirez technology incorporates a variety of renewably sourced raw materials in the formulation. The product line has been expanded to include resins with recycled content to provide for a larger number of more sustainable resin options.

Description

For production of general purpose infused parts, use the Envirez® 86400 INF resin. Like the Envirez® open molding resin, this promoted infusion resin has excellent physical properties and HDT.

General Information		
Features	General Purpose	
	Promoted	
	Renewable Resource Content	
Uses	General Purpose	
Physical	Nominal Value	Unit
Solution Viscosity	150	mPa·s
Solids Content	62	%
Biobased Content	12.0	wt%
Peak Exotherm	171	°C
Uncured Properties	Nominal Value	Unit
Gel Time	10	min
