Spartech Polycom SC2-1090U

High Impact Polystyrene Spartech Polycom

Message:

Spartech SC2-1090U is a medium viscosity, high impact polystyrene (HIPS) resin for injection molding that features a UV stabilizer. It is heat stabilized and lubricated for good processing characteristics.

HIPS are rubber modified styrenics that typically contain 1-10% rubber by weight. They offer dimensional and physical stability in moist environments and provide good chemical resistance. These materials also exhibit good flexibility along with good toughness.

A very versatile product for a wide variety of applications, Spartech SC2-1090U is recommended for industrial, transportation, sporting goods and electrical/electronic applications.
