

# Ravago Compounds HM-257

Low Density Polyethylene

Ravago Manufacturing Americas, LLC

## Message:

HM-257 is a fast-bloom slip concentrate for film applications. The rapid release of the slip additive in this product is useful where reduced friction is required during in-line film processing.

### Key Features:

Designed to be added to polyethylene film and extrusion resins

Uniform concentration of additives in concentrate

Ease of addition and feeding into extrusion equipment

### Directions for Use:

HM-257 is added to polyethylene at 2 to 8% to achieve desired results.
