

# ICORENE® 8035 WS

Linear Low Density Polyethylene

ICO Polymers EMEA, A Division of A. Schulman

## Message:

ICORENE® 8035 WS is a linear low density polyethylene stabilized for rotational moulding.

| General Information                       |                    |                   |             |
|---|--------------------|-------------------|-------------|
| Additive                                  | UV Stabilizer      |                   |             |
| Uses                                      | General Purpose    |                   |             |
| Appearance                                | Black              |                   |             |
|   | Natural Color      |                   |             |
|   | Unspecified Color  |                   |             |
| Forms                                     | Powder             |                   |             |
| Processing Method                         | Rotational Molding |                   |             |
| Physical                                  | Nominal Value      | Unit              | Test Method |
| Density                                   | 0.935              | g/cm <sup>3</sup> | ASTM D1505  |
| Melt Mass-Flow Rate (MFR) (190°C/2.16 kg) | 4.5                | g/10 min          | ASTM D1238  |
