

Lifolit® E 75.0898/1

Flexible Polyvinyl Chloride

ELASTO

Message:

Lifolit are a family of high-quality, soft polyvinyl chloride (PVC) compounds, custom formulated to your requirements.

PVC is a building block of our daily lives, its versatility and performance benefits make it an ideal choice for a wide variety of applications in the construction, consumer, industrial, toy and automotive markets.

We've been developing PVC compounds since 1965 and continue to engineer new solutions to address current and emerging market demands. As concerns grew over the use of certain plasticizers in PVC compounds, we have developed non phthalate, DEHP free and low VOC compounds.

Our aim is to provide the best material solution for every application; our experts work hand-in-hand with you to develop customised solutions that help your business to grow.

General Information		
Features	Good UV Resistance	
	Good Weather Resistance	
Uses	Gaskets	
	Profiles	
Processing Method	Coextrusion	
	Extrusion	
Hardness	Nominal Value	Test Method
Shore Hardness (Shore A, 3 sec)	75	DIN 53505
