

Isocor™ 651

Polyamide 6

Shakespeare Monofilaments and Specialty Polymers

Message:

Isocor™ 651 multi-polymer is a linear polyamide with unique solubility characteristics and physical properties. Unlike conventional polyamides, Isocor™ 651 is soluble in common alcohols or in alcohol / water mixtures. Isocor™ 651 is easily processed and has a wide range of applications due to its physical properties, chemical resistance, and lower melt temperatures.

Typical applications for Isocor™ 651 include:

thread bonding
specialty coatings
pigment carriers
specialty adhesives

General Information			
Features	Good chemical resistance		
Uses	Coating application
