

SABIC® PPcompound 7995

Polypropylene

Saudi Basic Industries Corporation (SABIC)

Message:

SABIC® PPcompound 7995 is a mineral filled modified polypropylene. This material combines a very high flow with a good scratch resistance and a good stiffness. This material has a very broad processing window and good esthical performance. Typical applications include esthetical automotive interior parts such as door panels and interior trim.

SABIC® PPcompound 7995 is a designated automotive grade.

General Information
