Petrothene® Select GS710061

Linear Low Density Polyethylene LyondellBasell Industries

Message:

The PETROTHENE SELECT series of resins are pelletized, high performance hexene, linear low density polyethylenes for applications requiring superior strength and toughness. These products offer significant improvements in mechanical properties and excellent additive homogeneity without sacrificing processability compared to conventional Hexene LLDPE materials. GS 710 exhibits superior processability compared to competitive High Performance Hexene LLDPE materials. Applications include trash and can liners, commercial and industrial packaging, as well as consumer packaging. The PETROTHENE SELECT series resins offer enhanced film strength, drawdown, toughness and heat seal strength.

General Information				
Additive	Anti-caking agent (1)			
Features	hexene comonomer			
	Anti-caking property			
	Workability, good			
	Good stripping			
	Good strength			
	Good heat sealability			
	Good toughness			
	Compliance of Food Exposure			
Uses	Packaging			
uses	Lining
