

Cytec L-305

Adhesive

Cytec Industries Inc.

Message:

L-305 is an energy broadcasting resin membrane designed to transfer impulse loads from plane to plane with laminar ballistic structures. This product can be provided as a film or as a prepreg to allow the designer to create low resin to fiber ratios necessary to manufacture energy absorbing laminates.

Typical Applications:

Helmets
Body Armor
Vehicle Protective Panels
Equipment Enclosures
Barrier Structures
Shields

General Information	
Features	Good Adhesion Good Flexibility Good Toughness High Impact Resistance
Uses	Bonding Coating Applications Housings Laminates Protective Coverings Reinforced Panels
Appearance	Colors Available
Forms	Film
