

ACRYLITE® Film White WF002

PMMA Film

Evonik Cyro LLC

Message:

ACRYLITE® Film WF002 is a high weather resistant, glossy and white acrylic film for graphic printings and high quality laminations. Due to its excellent performance under long term weathering and UV light exposure, ACRYLITE® Film WF002 does not present color change or yellowing. Its glossy and very smooth surface leads the film to provide an excellent printing quality.

Application

ACRYLITE® Film WF002 can be used to be printed on as high quality film decoration and then laminated on different polymeric films and sheets. Laminated decoration films protected by ACRYLITE® are suitable for a wide range of molding processes such as thermoforming and insert molding. ACRYLITE® Film WF002 can be used as a single face layer in high UV and weathering resistant durable labels and tapes without the need for an overlay film.
