

European Santicizer® 160

Plasticizer Additive

Ferro Corporation

Message:

Santicizer® 160 Plasticizer is a highly efficient primary plasticizer that offers formulators and manufacturers unusually good processing features (fast fusion, higher filler loadings, better foam expansion) and imparts excellent "end-use" properties such as migration and extraction resistance, foam resilience, stain resistance and abrasion resistance.

General Information	
Additives Physical	Nominal Value
Chemical Description	Butyl Benzyl Phthalate
