

BR® 95

Epoxy; Epoxide

Cytec Industries Inc.

Message:

BR® 95 paste adhesive is a two-part, modified epoxy adhesive maintaining superior strength in metallic and composite structure. BR 95 structural adhesive is curable at room temperature. Accelerated techniques may be employed if faster cure or improved elevated temperature strength are desired. To achieve consistent mechanical performance as well as maximum environmental resistance when bonding aluminum details, the use of BR® 127 corrosion inhibiting primer is recommended.

General Information		
Features	Good Adhesion	
	Good Thermal Stability	
	High Heat Resistance	
	High Strength	
Uses	Adhesives	
	Bonding	
	Structural Parts	
Appearance	Yellow	
Forms	Paste	
Physical	Nominal Value	Unit
Specific Gravity	0.875	g/cm ³
