# PAXOTHENE® NA112-27

### Low Density Polyethylene

#### **USI** Corporation

#### Message:

PAXOTHENE NA112-27 (LDPE) possesses low melt index and good toughness especially suitable for films with thickness of 0.020~0.100 mm. The said films are for package of shopping bags, frozen bags, re-closable bags and shrink packaging applications.

NA112-27 is formulated with medium slip to give good openability of film. High gloss and low haze characteristics of blown film made from NA112-27 provide attractive appearance to the packaged goods thus more valuable.
