CERTENE™ LLHF-123F

Linear Low Density Polyethylene

Muehlstein

Message:

LLHF-123F is a certified prime grade Ethylene-Hexene Copolymer designed for production of high strength GP packaging Blown Films. LLHF-123F features good processability and films exhibit exceptional toughness, superior dart impact strength, high Elmendorf Tear resistance, and excellent Creep resistance. LLHF-123F major applications include high strength liners, heavy duty bags, grocery bags, and frozen food packaging. Maximum recommended film drawdown is 0.5 mil. LLHF-123F contains high slip and high antiblock. LLHF-123F complies with FDA regulation 21CFR 177.1520(c) 3.2(a) and with most international regulations concerning the use of Polyethylene in contact with food articles.

| General Information | | | | | |
|---|-----------------------------|----------|-------------|--|--|
| Additive | High smoothness | | | | |
| | High caking resistance | | | | |
